---

Dear Corporate Representative,

On behalf of Pi Sigma Pi Minority Academic Engineering Society at The University of Texas at Austin, I would like to invite your company to become involved with our diverse academic organization to support our upcoming events for the 2020-2021 academic year.

Our mission is to unite and increase the number of minority engineering students who **succeed academically, lead professionally, and contribute passionately** to their communities. We have been dedicated to this mission for four decades through programs such as our weekly Study Nights, scholarship workshops, leadership initiatives, 3.0 dinners, and numerous outreach programs. Members of Pi take advantage of our opportunities to transform our mission into reality.

Pi Sigma Pi is known for being a supportive organization that strives to continue being an engineering academic community that helps its members develop as students, engineers, and leaders. The new PSP [officer board](#) is excited for the upcoming academic year and we are continuously working hard to further improve Pi and uphold this legacy.

All of our programs are made possible through the generous support of our corporate partners. In the attached document, you will learn more about Pi Sigma Pi and the variety of partnership opportunities available during the 2020-2021 academic year. Companies, organizations, alumni, and friends are encouraged to donate funds in support of our meetings and specific programs. Financial donations of supplies or giveaways for members are always welcome as well. As a supporter of Pi, you would not only join us in fulfilling our mission, but you would also have exposure to a talented group of diverse minority engineering students.

If your company is interested in supporting our organization, please complete and email our Response Form (page 4) to [utexas.pisigmapi@gmail.com](mailto:utexas.pisigmapi@gmail.com). Thank you for taking the time to learn about Pi Sigma Pi. We hope you decide to partner with us in the near future.

Sincerely,

*Alé Moreno*

Pi Sigma Pi Minority Academic Engineering Society | President
